1. This memorandum suggests action by the AD/3. The action suggested is stated in paragraph 2.

2. The subject proposed notices are transmitted to obtain your authority to refer them within the support services for concurrence. The purpose of the proposed subject notices is to notify headquarters components and the field installations of the contents of NSC Action and the President's directive of 8 May 1956, which specify certain precautionary measures to be followed by government officials relative to making commitments involving future performance or future expenditures of United States funds for foreign assistance. In view of the nature of these notices, it is suggested that only concurrence of the Office of General Counsel be obtained within the support services and with the other AD/3 components.
